

Applied Geography Bengal Pause

GEOGRAPHY & PLANNING
BUFFALO STATE

Experience the ZOOM antidote!
Open to all students, faculty and staff.
(College COVID rules will need to be followed)

Learn More: <https://suny.buffalostate.edu/news/geography-based-activities-provide-antidote-zoom>

As we navigate out of the pandemic – you are on campus – there is an opportunity here for you to join in on some sorely missed hands-on applied activities (whether you participate in one or many) that may serve you well when choosing courses and, most certainly, after graduation. Try activities outside of your chosen discipline or sub-discipline – you may see something you like! Each activity is a low-stress relaxed affair (many outdoors) – yes, learning can be fun.

Here is also an opportunity to meet and interact with faculty and fellow students – give yourself a break from the cell phone! Do you run a club? Consider attending as a club activity!

Activities will include the monitoring of a groundwater monitoring well, learning about research drones, finding your location on a topographic map, working a compass, water quality sampling, feeling comfortable using a microscope, learning a software trick, understanding a specific term used in a discipline, or how to access specific data, and more...

The activities will take place during Bengal Pause (12:15 to 1:30 pm) approximately once every two weeks (sometimes indoors and sometimes outdoors). The locations will vary across campus, so keep an eye on this clipboard to learn about the next activity and of any updates. Posters will be on display in the Student Union, SAMC, and the Classroom Building. Feel free to bring your own lunch or enjoy provided refreshments – check this clipboard. The activities are open to all students. Faculty and staff are most welcome too.

The goal is to take advantage of your time on campus, learn something new, and to have fun.

Next  **Activity**

 **Using
Topographic Maps**

Come learn the basics of reading topographic (topo) maps. The goal is to give you background you can use for hiking or other outdoor activities, as well as where to obtain topo maps so you can use your skills on your next adventure.

Tuesday, October 26th
Bengal Pause
12:15 to 1:30 P.M.
Classroom Building, Room A209
