

The Golden Snowball Trophy Comes to Buffalo!

During the winter of 2021-22 Buffalo won two snow-related awards! Buffalo was the snowiest city in New York State (Golden Snowball Award) and the snowiest city (100,000+) in the United States (Snow Globe Award).

Kenmore Presbyterian Church

Buffalo Museum of Science. Accompanying the exhibit "Snow: Tiny Crystals, Global Impact"

National Weather Service (NWS) Winter SKYWARN

Training, Buffalo State College

Mayoral offices of winning cities receive temporary possession of the Golden Snowball trophy for the year. In 2018-19 Buffalo won the award but became the first city to refuse the trophy. To avoid a repeat refusal this year, the Department of Geography & Planning at SUNY Buffalo State is hosting the trophy on behalf of the City of Buffalo. Stephen Vermette serves as custodian of the trophy: vermettsj@buffalostate.edu

Thank you: Patrick DeCoursey who keeps the snow tallies on his websites; to Jay Tokasz (Buffalo News) who helped nudge the trophy to Buffalo, to Niagara Awards (Kenmore, NY) which engraved Buffalo's plaque (paid for by Mr. Warren Glover), to Mary Perrelli who keeps this page active, and to the many of you who e-mailed me or talked to me about your appreciation that the trophy is here.
